

Psychology and Philosophy of the Mind

Doctoral programmes in psychology and philosophy joint symposium
27–28 August 2018, University of Turku

Welcome to the joint doctoral English-language symposium for students in psychology and philosophy! The theme of the symposium is the psychology and philosophy of the mind, including research of consciousness, neuroethics and open science.

The symposium provides a unique platform for networking, meeting your fellow Early Stage Researchers (ESRs) and for enjoying discussions and a good time together, as well as learning from chosen high-level keynote speakers.

We also welcome all supervisors of the ESRs to participate in the symposium.

- Keynote speakers
 - [Antti Revonsuo](#), Professor, Docent of Cognitive Neuroscience, University of Turku and University of Skövde
 - [Helena Siipi](#), University Teacher, University of Turku and [Valtteri Arstila](#), Senior Research Fellow, University of Turku

Organizers

- For [Finnish doctoral training network Dopsy / Psykonet](#)
 - Coordinator Kari Lehti, kari.lehti@utu.fi

Seminar rooms 150, 209, 309, Publicum
- 14:00–14:15 Coffee break and transition to wrap-up
- 14:15–15:00 What have we learned? Where do we go from here? Wrap-up and farewell.
Organizers

What is a lightning talk?

According to Wikipedia, a lightning talk is a “very short presentation lasting only a few minutes, given at a conference or similar forum. Several lightning talks will usually be delivered by different speakers in a single session, sometimes called a data blitz.”

PechaKucha and Ignite are trademarked formats of lightning talks involving a specific number of slides that are automatically advanced at fixed intervals.

At this symposium, talks are capped at five minutes plus three minutes for questions. The number of slides is limited to ten per presentation.
